

MICRO QHW 15

High Capacity Lab Scale

Accuracy defined, reliability refined.

The Micro QHW15 Precision Bench Scale is built for professionals who demand a high weighing capacity with reliable accuracy in every weighing task. With a maximum capacity of 15kg and precision of 0.1g, this scale delivers consistent, dependable performance for laboratories, production facilities and quality control environments.

Constructed with a stainless-steel platform and durable ABS housing, the QHW15 combines strength with practicality. Its smooth surface allows for easy cleaning, while the sturdy design ensures stability even under heavy use — making it a long-term investment for any workspace.

The QHW15 features a large backlit LCD display for clear readability in any lighting condition, along with a user-friendly keypad for simple operation. Functions such as tare, zero, parts counting, and percentage weighing give you all the versatility you need to streamline your weighing process. Stay powered wherever you work. The QHW15 operates on AC power or a rechargeable battery, making it ideal for both stationary and portable setups.

Specifications

- Rechargeable battery/ Mains operation
- ABS plastic housing
- Stainless-steel top plate
- 25mm LCD display with backlight
- RS232
- Auto Zero tracking
- Counting function
- Check weighing with alarm
- Hi / Lo function
- Percentage weighing
- Capacity 15000g
- Readability 0.1g
- Platter size 290 x 225mm
