

Micro A12E Indicator

The Micro A12E Indicator acts as the heart of any weighing system, integrating seamlessly with platform scales, bench scales, and floor scales. Its high-precision A/D conversion technology delivers accurate and stable weight readings, while the bright red LED display ensures excellent visibility in any lighting environment.

Specifications

- Supports up to 4 load cells for stable, accurate weighing
- Bright 6-digit LED display with status indicators for units, alarms, and weighing state
- Dual power operation – mains or internal rechargeable battery
- RS-232 interface for connection to printers, computers, or control systems
- Selectable digital filtering and stabilization time to reduce vibration interference
- High-precision A/D conversion for fast, stable readings
- Load cell excitation: DC 5 V, ≤ 150 mA
- Accuracy: Class III
- Verification Counts: 3,000 | Maximum External Counts: 30,000
- Operating temperature: 0 °C to 40 °C
- Ingress Protection: IP54 (dust and splash protected)
- Enhanced EMC design for reduced interference from external sources
