

## Micro A12E SS Indicator

When precision, hygiene, and durability matter, the Micro A12E Stainless-Steel Indicator delivers reliable, high-accuracy weighing even in the harshest industrial environments. Whether your operation involves food processing, chemical manufacturing, or marine applications, this indicator is engineered to withstand moisture, dust, and corrosion – outperforming ordinary weighing devices that fail under challenging conditions.

### Key Advantages

1. Full stainless-steel construction for corrosion resistance and easy cleaning
2. IP65 rating protects against dust and water splashes
3. Bright LED display for maximum readability
4. Trade-approved for South Africa (NRCS certified, Class III accuracy)
5. RS-232 output for connection to printers or computer systems
6. Dual power operation – mains or rechargeable battery for flexibility
7. Compact, durable design suitable for panel, wall, or pole mounting

### Specifications

- Approval / Accuracy: NRCS approved, Class III (Legal Metrology)
- Display Type: Red LED
- Power Supply: AC mains + internal rechargeable battery
- Functions: Tare, Zero, stable weight indication, continuous mode / print-on-demand via RS-232
- Environmental Protection: IP65 rating (dust-tight and splash-resistant)
- Mounting Options: Dash or pole mounting
- Material: Full stainless-steel construction

**Capacity:** Compatible with 1-4 load cells, supporting a wide range of platform, floor, and industrial scales.
