

Micro CS2T Crane Scale

The Micro CS2T is a highly versatile and robust electronic crane and hanging scale. It is engineered for heavy-duty weighing tasks in industrial environments, making it ideal for measuring heavy cargo, fishing nets, and large machinery. The scale has a portable design that makes it easy to handle, transport, and store.

The scale is built tough to withstand industrial use. Its core is protected by a solid, die-cast aluminium casing for exceptional protection and longevity. For safety, it uses a high-quality stainless-steel shackle and hook assembly. This assembly swivels 360°, ensuring safe, tangle-free attachment and detachment of loads.

The unit is powered by a reliable 6V Rechargeable Battery. It also has the capability to connect to an AC adaptor. A Low Battery Indication warns the operator when it's time to recharge, ensuring continuous operation. The CS2T is the ultimate blend of high capacity, rugged design, and intelligent features.

Specifications

- Maximum Capacity:** 2000kg × 500g
- Display:** 20 mm LCD display with backlight
- Remote Control:** Infrared remote included
- Construction:** Aluminium die-cast housing
- Load Components:** 360° swivel stainless-steel shackle and hook
- Power Supply:** 6V / rechargeable battery
- Functions:** Tare, auto power-off, low battery indication
- Dimensions:** Approx. 440 mm (H) × 60 mm (top shackle width) × 130 mm (side depth) × 32 mm (hook opening)

Operator efficiency is enhanced by the scale's features. It includes an infrared remote control for ultimate convenience. This allows the operator to control functions like Tare, Zero, and On/Off from a safe distance. Standard essential functions include the Tare function, Zero function, and Auto power-off.

Our Services

Border Scales is accredited by SANAS and NRCS to perform Legal Metrology Verification of scales used in trade within our scope of 3kg to 3000kg.

Our trained and skilled technicians will service, calibrate and repair all equipment we sell. We offer in-house training on all new equipment installations.
