

Micro CS300 Crane Scale

Durability and simplicity are central to the CS300's design. It features a rugged aluminium die-casing and a high strength stainless-steel shackle and hook to secure heavy loads in demanding environments. The unit's operation is user-friendly, utilizing a backlit 20mm LCD display for clear readings in any light.

The Micro CS300 Digital Hanging Scale is engineered for precision and efficiency in all overhead weighing tasks. With a compact, portable and industrial-strength design, this rugged scale can handle loads up to 300kg. It's built for rapid, reliable weighing in diverse settings, from busy warehouses to farming operations, ensuring accuracy is always achieved.

Specification

- **Maximum Capacity:** 300kg × 100g
- **Display Type:** 20 mm LCD with backlight
- **Power Supply:** 3 × AA batteries
- **Construction:** Aluminium die-cast case with stainless steel shackle and hook
- **Functions:** Zero, Tare, Hold, Overload Alarm, Auto Power-Off
- **Indicators:** Low Battery Indication
- **Weight (Approx.):** 1 kg

Designed for maximum versatility and portability, the CS300 simplifies weighing suspended loads. It is lightweight and it's battery operated performance eliminates the need for mains power, allowing it to be used anywhere work demands.

With its high capacity and low readability, the Micro CS300 is the ideal solution for professionals in logistics, farming and repair facilities. It delivers the dependable on-the-go weighing needed for precision, efficiency and peace of mind in every lift.
