

# COUNTING SCALE MICRO KC

The Micro KC Counting Platform Scale is a high-capacity, reliable counting solution designed for industrial and warehouse environments.

Built with precision and durability in mind, it helps streamline parts counting, inventory management, and packaging operations, ensuring faster and more accurate results.

Equipped with a rechargeable battery and mains power operation, the Micro KC offers flexible placement for any workspace

The Micro KC is ideal for manufacturing, warehousing, packaging lines, and quality control checks. It helps count small components such as nuts, bolts, and electronic parts efficiently, and the accumulation function allows you to keep a running total across multiple batches. Battery operation makes it perfect for mobile counting stations.

With its combination of industrial-grade capacity, smart counting features, and portability, the Micro KC improves accuracy, efficiency, and workflow.

The user-friendly display, pre-set alarms, and flexible power options make it an indispensable tool for any business that requires reliable and precise counting.

The scale features a robust stainless-steel platform that is easy to clean and built to last.

## Specifications

- Maximum Capacities Available:**
- 60kg x 5g (300 x 400mm Platform)
- 150kg x 20g (400 x 500mm Platform)
- 300kg x 50g (500 x 600mm Platform)
- Power Supply:** Built-in rechargeable battery and mains operation
- Display:** LCD with backlight
- Displayed Information:** Quantity, unit weight, total weight
- Platform Material:** Stainless-steel top plate
- Functions:** Auto unit-weight averaging, accumulation, audible preset alarm, auto zero, tare
- Operation:** Instant calculation of quantity, unit weight, and total weight
- Availability:** Various platform sizes and capacities available

**Border Scales cc**
