

MICRO SW30

Weight only - Portion Scale

The Micro SW30 Digital Weighing Scale is a versatile and durable solution designed for precise measurements in industrial, commercial, and agricultural environments. Built to handle a wide range of weighing tasks, it combines accuracy, convenience, and reliability to make your daily operations easier.

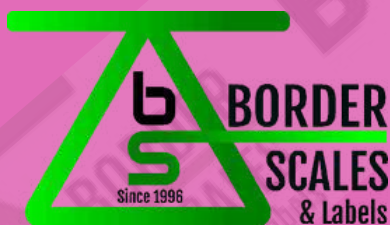

With a robust stainless-steel weighing pan and ABS plastic housing, the SW30 is built to last. Its design protects against dust and water splashes, making it ideal for demanding workplaces such as factories, food processing areas, and farms.

The scale offers 30kg capacity with 1g readability, ensuring highly precise measurements every time

Ideal for portion control in food processing, batch checking in manufacturing, and measuring feed or produce in agriculture, the SW30 helps businesses save time and maintain accuracy. Its durability and precision make it a smart investment for any operation that requires reliable weighing equipment.

An easy-to-read backlit LCD display, adjustable levelling feet, and dual power options (rechargeable battery or AC adaptor) make the Micro SW30 simple to use anywhere. Operators can rely on its intuitive functions for fast, consistent weighing.

Specifications

- Accurate 30kg digital scale with 1g readability.
- Stainless-steel pan with dust and splash protection.
- Easy-to-read backlit LCD with zero-tracking and hi/lo alarm.
- **Dual power:** rechargeable battery or AC adaptor for flexibility.
